

# Environmental Policy

Omnia Projects are an Engineering Consultancy providing multidisciplinary expertise to the energy sector. We are committed to conducting our business in such a way as to ensure that we minimize the environmental impacts associated with our operations.

Senior Management is fully committed to this policy and supports this commitment by:

- Continually improving our performance, setting objectives and targets as part of our overall business strategy
- Providing sufficient resources and appropriate training to manage our impacts effectively
- Complying with relevant environmental legislation and, where practicable, with codes of practice, industrial standards and other requirements, such as those specified by our clients
- Ensuring our environmental impact is regularly assessed to prevent pollution, minimize impact and consider opportunities for improvement
- Integrating sustainability into our operations to reduce material usage, energy usage, travel impact, and waste
- Implementing a business management system that meets or exceeds the requirements of BS EN ISO 14001:2015 and maintaining accreditation to this standard.

This policy is formally reviewed at least annually.
